S.No.	Criteria	Marking Criteria		Maximum Marks	Marks obtained

- f) For arriving at the financial score of the bidder the final financial quote of the bidder will be calculated after adjusting the discounts offered on the pre-determined tariff by the respective bidder.
- g) For example if the bidders have submitted bids, with D1 giving highest discount of 60% (amongst all bidders) and D2 a Discount of 50% then, the final financial quotes will be as under
- Final financial quote of D1 = $FFQ_{D1} = 40 (100 - 60)$.
 - Final financial quote of D2 = $FFQ_{D2} = 50 (100 - 50)$.
- h) The Lowest final financial quote (LFFQ) therefore based on highest discount is = 40 (100 - 60).
- i) Formula for determining the Financial scores of all the bidders is:
 Financial Score of a Bidder = $\{(LFFQ) / FFQ \text{ of Bidder under consideration}\} \times 100$ (adjusted to 2 decimals)
- Financial Score of Bidder D1 = $\{40/40\} \times 100 = 100$
 - Financial Score of Bidder D2 = $\{40/50\} \times 100 = 80$
- j) The weights that would be given to the Technical and Financial Scores would be: Technical Score = 0.30, and Financial Score = 0.70 (i.e. 30% Weightage to Technical Score and 70 % Weightage to Financial Score)
- k) Proposals will finally be ranked according to the Total score ($0.3 \times \text{Technical Score} + 0.7 \times \text{Financial Score}$) obtained by each bidder under QCBS
- l) The bidder whose combined total score (S) is the highest will be ranked 1st and will be the H-1

bidder (or the L-1 Lowest bidder / successful bidder for award of work).

m) Illustration:

- Bidders D1 & D2 carry Technical Score of 100 each and Financial Scores as above then the final scores of the bidders will be calculated as follows:
- Final Score of bidder D1 = $\{100 \times 0.3\} + \{100 \times 0.7\} = 100$
- Final Score for bidder D2 = $\{100 \times 0.3\} + \{80 \times 0.7\} = 86$
- The Total score of Bidder D1 is Highest i.e. H-1 and therefore is the successful Bidder and will be considered for award of contract for the cluster.

n) The term “Highest Rank Bidder” shall mean the Bidder who has the highest total score in QCBS and is L-1 or Lowest Bidder for award of work.

12.5 Evaluation criteria for QCBS

The number of Points to be allotted for each of the Evaluation Criteria as per the Table in Clause 12.4 (e).

12.9 In the event that the highest bidder in all the three clusters are different, then those bidders would be declared as the selected bidders for the respective clusters. If one Bidder is higher in two clusters and other Bidder in remaining cluster, then two clusters would be awarded to same highest bidder and remaining one to the other bidder.

12.10 In the event that the highest bidder is same for the three clusters but Bids quoted by the highest bidder are different for the 3 clusters, then Highest bidder would be the selected bidder for two clusters in which percentage discount being offered by him is numerically higher between the three clusters. For the remaining one cluster the bidder would be selected as per clause 12.12 defined below.

12.11 In the event that the highest bidder is same for the three clusters and the bids quoted by the highest bidder are also same for the 3 clusters, then bidder will have option to choose two clusters for which the highest bidder would be the selected bidder. For the remaining cluster the bidder would be selected as per clause 12.12 defined below.

12.12 After the selection of the bidder(s) above, in event one bidder is selected for two clusters; for the remaining cluster the Authority shall invite the Second Highest bidder of that cluster to match the financial bid of the aforesaid highest bidder for that remaining cluster. In case, the second highest bidder agrees to match the financial bid of the highest bidder for that cluster, then the second highest bidder would be the selected bidder for that cluster. In case, the second highest bidder does not agree to match the financial bid, then Third Highest will be invited to match the financial bid of the aforesaid highest bidder for that remaining cluster and in case the third highest bidder agrees to match the financial bid of the highest bidder for that cluster, then the third highest bidder would be the selected bidder for that cluster. In case, the third highest bidder does not agree to match the financial bid of the Highest bidder, then in this scenario the Authority, may, in its discretion, invite fresh Bids for the remaining Cluster or offer to award the remaining cluster to the highest bidder of that Cluster and thus the bidder may get all three Clusters

12.13 In the event that there are two or more highest bidders scoring the same QCBS score for any given cluster, the bidder quoting higher discount in financial bid shall be declared successful bidder for that cluster. In case, two or more bidders are quoting same highest discount in financial bid, then the Authority shall identify the highest bidder and second highest bidder for that cluster by draw of lots, which shall be conducted in the presence of bidders who choose to attend the draw of lots.
